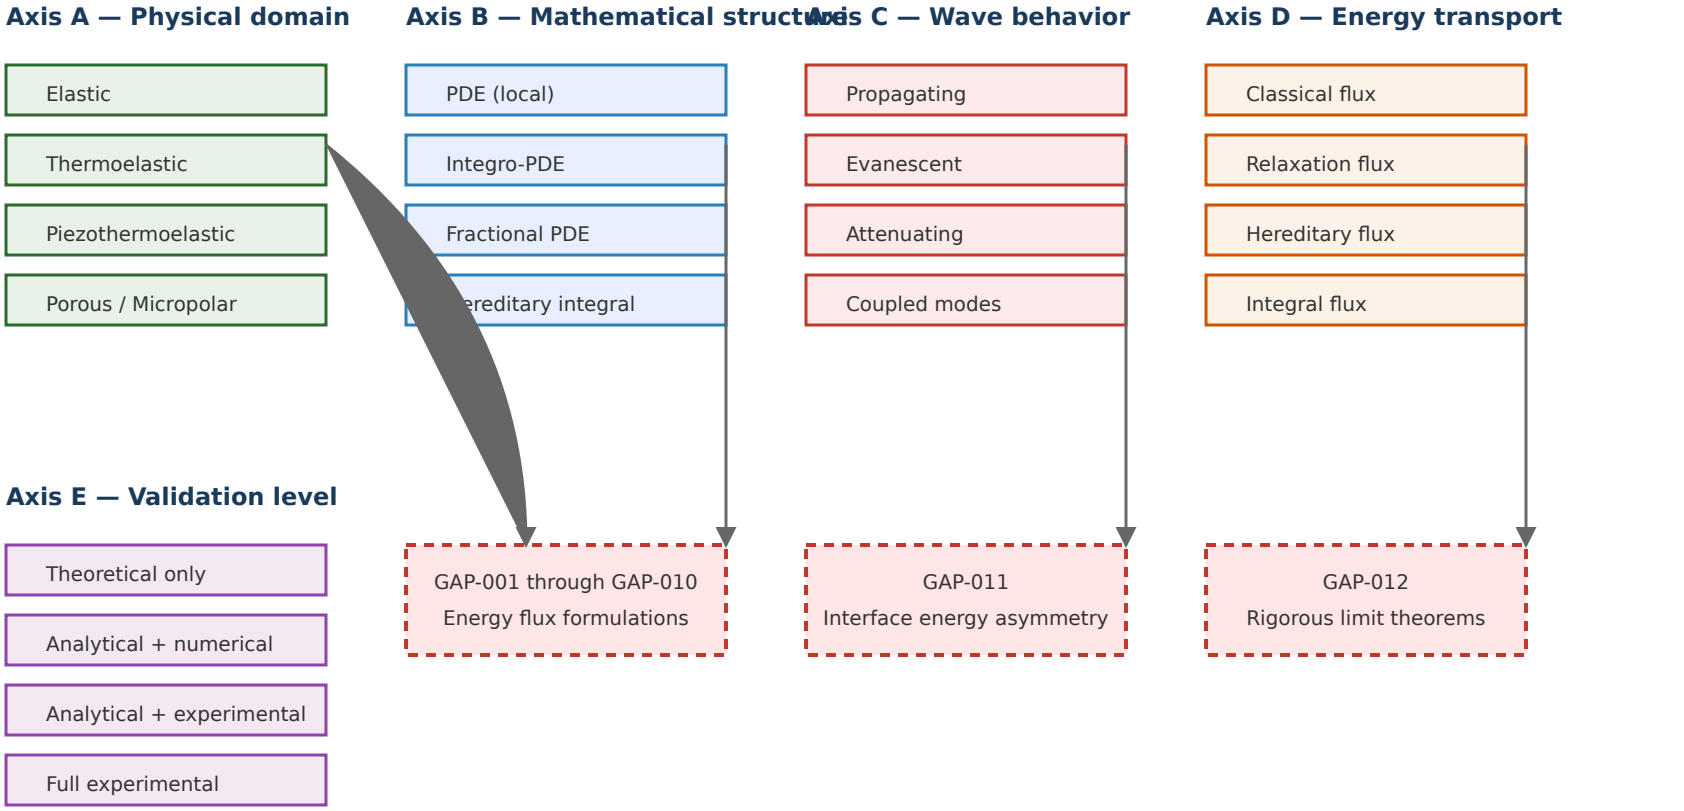
Five-axis research taxonomy

Classification framework for continuum mechanics literature (GAP-001 through GAP-012)



Taxonomy vector:

v = (v_A, v_B, v_C, v_D, v_E)

Each study classified as one 5-tuple

Empty cells = research gaps

Identified gaps (12 total):

GAP-001 to GAP-010: distinct questions; not a flux-count claim

GAP-011: Interface energy flux asymmetry (§15.1)

GAP-012: Rigorous limit theorems between theories (§12.3)
