Sources still needed - author, title and DOI for every row

13 works (14 blocked claims) left. 10 rows carry a title, 3 say plainly that no title could be read, 4 carry a verified DOI and 9 have none (books and pre-DOI papers - for those the journal, volume and pages are what a library needs).

What this list is now. 40 works came in the first two uploads, 1 was found inside Drive, and 25 of the 26 files in the fourth batch of 2026-11-01 matched their row - 66 works and 66 blocked claims closed, each identified from the journal, volume and page or the DOI printed on the page itself, never from a file name. One file in that batch did not match: a two-page Journal of Thermal Stresses item was sent for the **Nowacki (1975)** book, so that row is still here. Nothing on this list has been seen in Drive.

#	Author(s) and year	Title, then the citation as the manuscript carries it	DOI	DOI ok
1	**Podlubny 1999**	**Fractional differential equations** Podlubny 1999 (bibliography key Podlubny1999; the manuscript entry itself is empty - from general knowledge, not verified, this is Podlubny, Fractional Differential Equations, Academic Press 1999; confirm the title before ordering)	*none*	-
2	**Boley and Weiner 1960**	**Theory of thermal stresses** Boley and Weiner 1960 (Theory of Thermal Stresses)	*none*	-
3	**Born and von Karman 1912**	*title not asserted* Born and von Karman 1912 (Physikalische Zeitschrift 13)	*none*	-
4	**Carlson 1972**	**Linear thermoelasticity** Carlson 1972 (Linear thermoelasticity, Handbuch der Physik VIa/2, 297-345)	*none*	-
5	**Cattaneo 1948**	**Sulla conduzione del calore** Cattaneo 1948	*none*	-
6	**Danilovskaya 1950**	*title not asserted* Danilovskaya 1950 (Prikl. Mat. Mekh. 14)	*none*	-
7	**Kumar and Tomar 2024**	**Rayleigh-type waves in nonlocal micropolar thermoelastic half-space containing void pores** Kumar and Tomar 2024 (J. Elasticity 156)	10.1007/s10659-024-10079-4	yes
8	**Kumar, Gupta, Pathania and Barak 2025**	**Response of memory to the imperfect fluid-double porous non-local thermoelastic solid interface** Kumar, Gupta, Pathania and Barak 2025 (J. Information and Optimization Sciences 46)	10.47974/JIOS-1608	yes
9	**Nowacki 1975**	**Thermoelasticity** Nowacki 1975 (Thermoelasticity, Pergamon)	*none*	-
10	**Singh, Sarkar and Pal 2020**	**Temperature-rate-dependent thermoelasticity theory with memory-dependent derivative: energy, uniqueness theorems, and variational principle** Singh, Sarkar and Pal 2020 (J. Heat Transfer 142)	10.1115/1.4047510	yes
11	**Tzou, D. Y.**	**Macro- to microscale heat transfer: the lagging behavior** Tzou, D. Y. (1997), Macro-to-microscale heat transfer: the lagging behavior (book)	*none*	-
12	**Vernotte 1958**	*title not asserted* Vernotte 1958	*none*	-
13	**Wang, J.-L. and Li, H.-F.**	**Memory-dependent derivative versus fractional derivative (IV): space-dependent derivative for unsteady heat diffusion** Wang, J.-L. and Li, H.-F. (2025), Memory-dependent derivative versus fractional derivative (IV): space-dependent..., Fractal and Fractional 9:794	10.3390/fractalfract9120794	yes

One replacement copy, outside the list: Polizzotto (2001), Int. J. Solids Struct. 38 - the copy already held has no extractable text, so a text-based PDF would close claim CR195.

How the DOIs were checked. Each DOI was queried against the Crossref REST API; the title printed here is the one that record returns, and "yes" means the record is the work named in the citation line. Where a year or an article number differs from the manuscript, the note on that row records it.
